

Fast. Simple. Proven.

Shelter Pressure Monitor Switch PART #: 9803

Shelter Pressure Monitor Switch Part #9803

Used in conjunction with part # 9900, 110v inflator/deflator, the pressure monitor switch is an optional item used to maintain consistent air pressure in your shelter. Optional accessory, this item is recommended for use overnight or on long-term deployments.

Shelter Pressure Monitor Switch is sealed for weather -resistance.

Connect Inflator to Interior Fill Valve and turn on power
