

SPECIFICATIONS: PART No. 9940

Adjustable Soap Injector

Adjustable Soap Injector provides a simple way to inject soap directly in line during the decontamination process. Injector is connected to inline water source. Once connected, set the needle to desired soap consistency depending on your protocol. The kit works well with the ZUMRO decon shower system and operates with water flows between 1 and 8 gpm.

Each kit comes complete with 5-gallon multi-purpose tank, quick-connect hose with tank adaptor assembly and convenient carry handle.

This item not for use with bleach.

Specifications:

Inlet/Outlet: GHT-threaded connector
Flow: 1 GPM min./ 8 GPM max.
Max. Pressure: 150 PSI
Tank: 5 gal. multi-purpose tank
Shipping Weight: 15
