EFFORTLESS DEPLOYMENT

COMMAND & REHAB

ZUMRO Air Shelters are rapidly-deployed, easy to set-up and are extremely versatile for use as Mobile Command Centers and Rehab.

With a ZUMRO Shelter, the configurations and options are virtually endless. Easy to inflate in minutes with limited personnel, you may set up your ZUMRO Shelter as a Command Center, Communication Hub, Area for Law Enforcement, Personnel Work Center, Sleeping Quarters, Rehab, Restroom, Storage Area, etc.

Available in all sizes from 100 sq. ft. on up.

DECONTAMINATION

PRE-PLUMBED & PRE-ASSEMBLED

Available in Single, 1, 2, 3 and 4- lane configurations

FEATURES

- Pre-assembled canopy, floor, curtains and shower stalls.
- Pre-plumbed showers.
- Removable stalls and curtains for increased versatility
- Full interoperability with all other ZUMRO Shelter Systems & Field Hospitals.
- Multiple decon uses: gross, mass, technical, patient, non-ambulatory personnel, equipment, animal, etc.
- Full line of Decon Accessories available.

FIELD HOSPITAL & SURGE

Featuring MODEL 860 AND QUAD INTERCONNECT SHELTERS

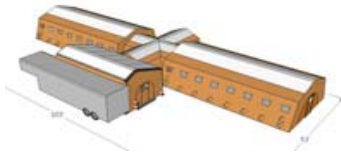

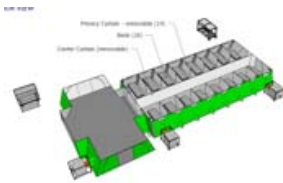

Provide medical personnel with versatile, rapidly-deployed, all-weather, climate-controlled shelters.

ZUMRO's superior design allows for quick set-up and take-down with minimal personnel. Shelters can be staked and deployed in its own footprint and can easily be moved if necessary after inflation.

Versatile Field Hospital Designs & Configurations to meet your specifications.

INFLATABLE TRAILER AWNINGS

Key Features:

- Rapid-Deployable
- Fully Enclosed
- Climate Controlled
- Operational in JUST 5 MINUTES!
- Triples Usable Trailer Workspace
- Available in 8 colors!
- Interoperable with ZUMRO Shelters
- CUSTOM SIZES AVAILABLE

ZUMRO's Inflatable Awning Systems are an innovative way to quickly expand your workspace.

CUSTOM AWNING SYSTEMS

43' AWNING SYSTEM

SAN ANTONIO PD

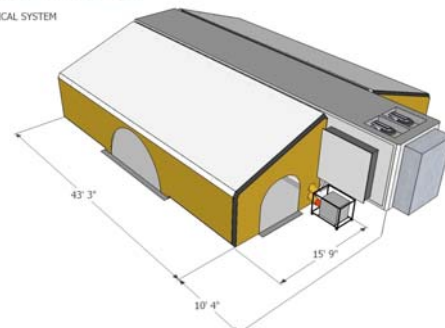

RESCUE TRUCK - CUSTOM AWNING

DOUBLE INFLATABLE AWNING SYSTEM

PATRIOT MOBILE MEDICAL SYSTEM

LED Lighting System for ZUMRO Shelters

400 Sq.Ft. Medical Shelter with Pre-Installed LED Lighting provides ~ 13,500 lumens

455 Sq.Ft. ZUMRO Quad Shelter with Pre-Installed LED Lighting provides ~ 21,200 lumens

Control Panel mounted in Aluminum Frame on models with Control Box

Dual Control Switches with indicator light.

25 Foot 12-3 Cord with switched GFI plug.

Dual 110 Volt outlets for auxiliary equipment.

Optional direct 12 Volt wiring harness.

SPECIFICATIONS

LED Light Wave Length.. 4500 K / Natural White
Lumens per Light Strip 2700
Current Draw @12 V 3 Amps per Light Strip or 35 Watts
LED's per Strip 600 to 1200, depending on Shelter Model
LED Voltage 12 Volt DC
Control Box..... 110 Volt with 2 additional 110 Volt outlets.
Transformer..... Fan Cooled 110VAC to 12VDC converter.

ZUMRO's new pre-installed LED (light emitting diode) low voltage lighting is now available on all Shelter models.

The lighting strips remain in the shelter when stored and provide instant lighting upon Shelter deployment.

Four or five (depending on the model) dual element strips run the entire inside length of the shelter and provide a pleasant natural light, not the typical "blue" light associated with common LED's.

The ZUMRO LED lights strips are water-proof and mounted in clear vinyl sleeves for protection. The sleeves are pre-installed onto the Shelter structure.

Each Light Strip is individually pre-wired into the Shelter and can be field replaced by simply unplugging it.

In models with a Control Box, each lighting strip can be individually controlled. The Control Box can be used inside or outside the Shelter. (Basic models: all on/all off only)

Optional colored vinyl "Lenses" are available in Red for Night-Ops.

An optional wiring kit is available for "straight 12 Volt" use, by-passing the 110-to-12VDC Volt Converter Control Box.

All-Aluminum Welded Carts

ZUMRO Aluminum Carts

ZUMRO manufactures a wide variety of all welded Aluminum Carts to store Shelters and related accessories. All Carts manufactured Hatboro, PA. Carts can also be customized by request. (extra charges will apply)

Part # 9954: 3.5 Ton Portable Trane A/C unit with Heat Pump

- Features:
- Cold/warm air discharge
 - Qty 1-Return air intake
 - Qty 1-Removable intake filter
 - Mounted on a powder coated stackable cart with rolling, locking casters down to 45° F.
 - Removable condensation drain with garden hose connection
 - Rigid return duct with intake grille (24" L x 12" dia)
 - Heat Pump works in temperatures down to 45° F.

Heat Pump not recommended for heat use in temperatures under 45° F

Part # 5418: Portable AC Unit, 14k BTU

- Features:
- 14,000 BTU
 - 2 way air direction circulation
 - Casters to allow for easy movement
 - 115 Volt system
 - Single Vent Hose Configuration
 - Lightweight!

*Please note: **multiple AC units may be required to meet desired cooling temperatures*

PART # 9906 PROPANE FIRED SHELTER HEATER

includes Heater, Blower, Duct and Remote Thermostat

Propane Tent Heater when coupled with the required blower provides fresh warm air for all your confined space needs. This unit is propane fired and electrically powered.
Requires the model 1325D Ventilator to operate. Ships with remote thermostat, and ducting.

PART # 9935 TRI-FUEL SHELTER HEATER

includes Heater, Duct , Remote Thermostat on wheels

Tri-Fuel Tent Heater , indirect heat, provides fresh warm air for all your confined space needs.

This unit utilizes Diesel, Kerosene or Jet Fuels.

A heat exchanger keeps exhaust gas and heated air separate and large capacity fuel tank provides hours of continuous operation.

Includes:

- Flexible Heat Duct and Duct Adaptor
- Remote Thermostat

PART # 9909 STAKE PACKAGE

Qty 4 steel stakes 3/4" x 18"
Qty 4 steel stakes 9"
Qty 6 steel stakes 15"

Multiple packages may be required for larger shelters
